Application

1. What is your usual response when you encounter challenges in work? How does today's passage help you to reconsider how you should respond?
2. With the understanding of the students your ministry is reaching, what is something you/your ministry will do to better reach them?
3. How faithful are you in following up students? How can you grow in your faithfulness?
4. How can you/your ministry report what you've done such that God is the focus and not you?
