

## **Numbers 9-10:10 – Journeying With God**

### **1. Celebrate the Passover (9:1-14)**

#### **Observations:**

Lesson #1: Just as the Israelites ponder on God's word concerning celebrating Passover, we today ponder on God's word concerning our regular communion and the coming Easter (the true Passover), remembering our redemption just as the Israelites did.

### **2. Be Guided by the Cloud (9:15-23)**

#### **Observations:**

Lesson#2: Be alert and responsive to God's guidance no matter how inconvenient it may be. In other words, they are to follow God on His terms, not theirs.

### **3. Be Communicated via the Two Silver Trumpets (10:1-10)**

#### **Observations:**

Lesson #3: God has put in place structure and order for clear communication and coordination amongst His people – through communal worship, fellowship, and prayers so as to remind one another of God's abiding relationship with us.

#### **Implications**

- a. How can you grow in your appreciation of your salvation, and how can it help you in your faith journey?
- b. How can you grow in obedience to take God at His word more readily?
- c. How has God's constant guidance in your life assured you of His grace, faithfulness, and provision in your faith journey?
- d. How does being reminded of God's abiding relationship with you help you face life's challenges in your faith journey?
